BWT Presents The New F1R Swimming Pool Cleaner

Experience the power of BWT engineering with the new F1R pool cleaning robot designed with **patented** cutting-edge technology.

Concentrated technology with low energy consumption

The F1R pool cleaning robot cleans the bottom, walls and waterline of any pool up to 10m long. Its smart navigation system and integrated gyroscope assure a sparkling clean swimming pool.

Powerful Suction

The new F1R pool cleaning robot is equipped with **advanced vacuum technology capable of vacuuming up to 4,000 GPH (15 m³/h)**. It effortlessly lifts and captures pool debris.

User-Friendly Design

Weighing in at **only 12 lbs** and equipped with a **rapid water evacuation** system, the F1R is super easy to put in and take out of your pool. Cleaning the filter is also a breeze: simply lift it out from the top of the robot and rinse off.

Increased Agility = More Efficient Cleaning

Designed with remarkable agility, it can turn on itself like a black cab. This precise manoeuvrability avoids scattering debris, enabling the robot to effectively capture everything in its path!

Patented Anti-Entanglement System: Smart Cable Control Innovation

The F1R pool cleaning robot is equipped with BWT's revolutionary **Smart Cable Control** technology (SCC).

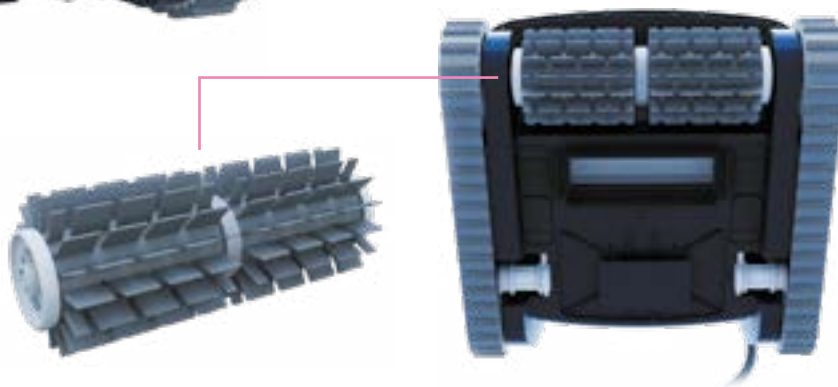

This advanced system, combined with the precision of our **Gen Core 7** navigation system, optimises the robot's movements in your pool, ensuring a flawless clean every time.

PRODUCT ADVANTAGES QUICK VIEW

- Powerful and lightweight
- High Tech Filter
- Remote control with smartphone app
- Smart cable control with GEN CORE 7
- Rapid water evacuation

Included equipment :

- » 1 High Tech Filter
- » 2 PVC brushes
