swimming pool cleaners

BWT Presents the New F1RX Swimming Pool Cleaner

Experience the power of BWT engineering with the new F1RX pool cleaning robot designed with **patented** cutting-edge technology.

Concentrated technology with low energy consumption

The F1RX pool cleaning robot cleans the bottom, walls and waterline of any pool up to 12m long. Its smart navigation system, integrated gyroscope and double hyperfine filtration system assure a sparkling clean swimming pool.

Powerful Suction

The new F1RX swimming pool cleaner is equipped with **advanced vacuum technology capable of vacuuming up to 4,000 GPH (15 m³/h)**. It effortlessly lifts and captures pool debris.

Precise Filtration and User-Friendly Design

The F1RX's double hyperfine filtration system ensures impeccable water clarity and is designed to handle a wide range of debris. Weighing in at only 12 lbs and equipped with a rapid water evacuation system, the F1RX is super easy to put in and take out of your pool.

Cleaning the filters is a breeze: simply lift them out from the top of the robot and rinse off.

Increased Agility = More Efficient Cleaning

Designed with remarkable agility, it can turn on itself like a black cab. This precise manoeuvrability avoids scattering debris, enabling the robot to effectively capture everything in its path!

Patented Anti-Entanglement System: Smart Cable Control Innovation

The F1RX pool cleaning robot is equipped with BWT's revolutionary **Smart Cable Control** technology (SCC).

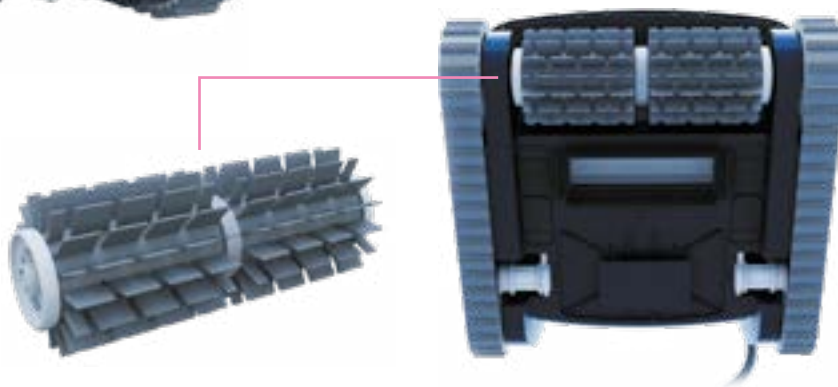

This advanced system, combined with the precision of our **Gen Core 7** navigation system, optimises the robot's movements in your pool, ensuring a flawless clean every time.

PRODUCT ADVANTAGES QUICK VIEW

- Powerful and lightweight
- Double hyperfine filtration
- Premium smartphone app with remote control
- New GenCore7 navigation system
- Smart Cable Control
- Led
- Rapid water evacuation

Included equipment :

- » 2 filters:
High tech filter
Hyperfine filter
- » 2 PVC brushes
